## 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

- Improved awareness of Equality and Inclusion.
- Improve access to the physical environment of the school, adding specialist facilities as necessary. This covers improvements to the physical environment of the school and physical aids to access education.
- Increase access to the curriculum for students with a disability, expanding the curriculum as necessary to ensure that students with a disability are as, equally, prepared for life as are the able-bodied students. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist these students in accessing the curriculum.
- Improve the delivery of written information to students, staff, parents and visitors with disabilities. The information should be made available in various preferred formats within a reasonable time frame.

The plan will be made available online, on the school website, paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Dudley Regional Governing Body

Dudley Metropolitan Borough Council

Archdiocese of Birmingham

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including pupils, parents, staff and governors of the school.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises.

This policy complies with our funding agreement and articles of association.

### 3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.

*The information set out in the column of 'current good practice' are examples to guide your own analysis of your current practice. They are not a thorough representation of good practice, and should be adapted to suit your school's context.*

	<i>students' needs can be met on school journeys and visits.</i>					
Improve the delivery of information to pupils with a disability	<p><i>Teachers and TLAs consider the needs of each SEND student and provide accessible learning resources for them. The increasing use of Interactive Whiteboards/Touchscreens and other digital technologies have diversified the ways in which information is presented to all students. Visual and audio information is now as common as written information.</i></p> <p><i>Differentiated resources with particular attention to reading age, plain English, images and layout are provided.</i></p> <p><i>Laptops and other digital technologies are used.</i></p> <p><i>Tactile resources and resources that provide multi sensory learning are provided.</i></p> <p><i>Scribes are used as and when required.</i></p> <p><i>Our school uses a range of communication methods to ensure information is accessible. This includes:</i></p> <ul style="list-style-type: none"> <li><i>• Internal signage</i></li> <li><i>• Large print resources</i></li> <li><i>• Pictorial or symbolic</i></li> </ul>	<p>To continue to provide current good practice.</p> <p>To further improve the ICT equipment for children with SEND.</p>	To audit the ICT provision for children with SEND, review findings and enhance provision.
